

# Chile, Argentina & the racist JNF

The 1973 coup in Chile led to the torture of tens of thousands, and the murder of over 3,000 Chileans by the military junta.

Remembering the horror, we also recall the worldwide solidarity in support of the victims.

Three years later the Argentine military junta began killing over 30,000 opponents, including 3,000 Jews specially targetted by the antisemitic generals.

This did not prevent Israel becoming Argentina's main provider of arms and 'security' training to hundreds of military officers in Israel.

Many years later one torturer, Peregrino Fernandez, acknowledged the assistance received from the Israel Embassy's Herzl Inbar (later Israeli Ambassador to Spain).

JNF Memoria Forest covers up Israel's role in two mass killings. It sits within the larger JNF Ben Shemen Forest Park which covers the ruins of five Palestinian villages, concerning which official Israeli archives record (10/07/48): *'Our forces are clearing the 'Innaba-Jimzu-Daniyal area and are torching everything that can be burned'*.

In a sick twist this JNF forest claims to honour the 3,000 Argentine Jews murdered during the generals' reign of terror. The Visitor Centre suppresses all mention of Israel's arming and training the killers.

The Jewish National Fund UK boasts Tony Blair and Gordon Brown as Honorary Patrons. It is an arm of the Israeli government internationally which raises money to continue the ethnic cleansing of Palestinians under Israeli control.

Stop the JNF UK exists to challenge this racist organisation wherever it organises. **Join us and help us.** The brutal, dictatorships of South America have largely gone. The equally brutal regime of apartheid across the whole of Palestine continues with unstinting support from the UK and other Western governments.

1. Endorse the Stop the JNF Call for Action
