Scottish Palestine Solidarity Campaign

BUILDING EFFECTIVE SOLIDARITY

You can make a difference by taking action right now!

Construcciones y Auxiliar de Ferrocarriles S.A. (CAF) has been shortlisted to provide ScotRail's new suburban train fleet. CAF is listed in the UN database of complicit businesses due to its involvement in the so-called Jerusalem Light Rail project.

CAF is operating and extending the "Red Line" and is building the new "Green Line." Both lines connect illegal Israeli settlements in the occupied Palestinian territory with West Jerusalem. The JLR network is contingent on the expropriation of Palestinian land and the further territorial fragmentation of the city's Palestinian neighbourhoods.

ScotRail is a state-owned company managed by ScotRail Trains Limited, a subsidiary of Scottish Rail Holdings Limited (SRH), which is wholly owned by the Scottish Government. The decision to shortlist CAF stands in stark contrast to the Scottish Government's rhetoric and the Scottish Parliament's position in support of the boycott of Israel.

Civil society is on the move; we welcome the intervention by the train drivers' union ASLEF, RMT, TSSA and the STUC. ASLEF has made its position clear: **if CAF is awarded the contract, then members will not drive these trains.**

This is a powerful example of workers putting solidarity with Palestine into practice and using their collective voice to challenge corporate complicity.

Public money should not reward companies involved in Israeli land theft. And workers should not be expected to facilitate that complicity.

Make sure your voice is heard!
